BY FAX

Dear Ms. Beisel.

The Canada Industrial Relations Board has now issued the reasons for decision dated April 25, 2008. The Union is in the process of filing an application for reconsideration and we remain of the view that until, this application has been dealt with, collective bargaining would be premature and counterproductive.

However, as we have indicated in previous correspondence, the Union believes it is time to proceed with discussions on scope, and inclusions/exclusions. We are of the view that any efforts to resolve those issues will be both useful and productive. Please advise as to whether the Employer intends to participate in these negotiations and possible dates on which to begin the process.

Sincerely,

Robert Lumgair
National Representative
